RE: August 7, 1996, Hazardous Waste Generator and Used Oil Compliance Inspection

Dear Mr. Howe:

On August 7, 1996, the Wyoming Department of Environmental Quality/Solid & Hazardous Waste Division (WDEQ/SHWD) conducted a hazardous waste generator and used oil compliance inspection at your facility. This inspection was conducted to verify that your facility is managing used oil and hazardous wastes in compliance with state hazardous waste rules and regulations.

Please find enclosed a copy of my inspection and photographic reports. As we discussed at the conclusion of the inspection, no violations were found. During the inspection you asked that I forward a copy of the department's list of recyclers in this area. Please find this list enclosed. As we discussed over the phone after the inspection, INMETCO, 245 Portersville Rd., Ellwood City, CA, 16117, 412-758-2800 recycles Ni-Cd batteries.

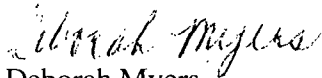

I would like to point out that your facility is very well run. In addition, I was impressed with your recordkeeping, management of wastes, and steps you have taken to reduce the amount of waste your facility generates.

Howe

Should you have any questions or comments regarding the inspection or my report, please feel free to contact me at 307-777-7752. Given that Nick Robinson of EPA Region VIII accompanied me during the inspection, I am forwarding a copy of my inspection report and this letter to him.

Sincerely,

Deborah Myers  
Senior Environmental Analyst  
Inspection & Compliance  
Solid & Hazardous Waste Division
